

# Acronis True Image 9.0

Acronis True Image 9.0 is a complete back-up and restore solution for home and home office users that can protect family pictures, videos, music, and important documents stored on your home PC.

**You asked for it and we delivered. With Acronis True Image 9, you get two backup products in one and then some!**

You've accumulated a lifetime of memories on your home PC in addition to important personal documents, such as tax returns and resumes, not to mention all the software applications you installed and unique settings for each family member that took countless hours to setup. Are you adequately protected, ensuring that you can recover your precious data and countless hours of custom configurations in case your PC fails?

## Two in One!

- Our disk imaging backup option enables you to create an image of your entire hard disk drive, including the operating system, applications, user settings, and all data. Use an image to restore your PC to a known, working state without any software reinstallation
- A new, file-based backup option enables you to backup individual files and folders, like your My Documents folder or a specific file, such as your latest tax return

- **New! Exclusive! Acronis Snap Restore**
- **New! Backup specific files/folders**
- **New! Exclude files**
- **New! Differential backup**
- **Live backups**
- **Backup scheduler**
- **Exclusive! Acronis Secure Zone**
- **Exclusive! Acronis Recovery Manager**
- **Wizard-driven Graphical User Interface (GUI)**

Acronis True Image 9 provides the maximum flexibility to ensure that you are adequately protected and can recover from unforeseen events such as viruses, unstable software downloads, and hard drive failures.

## And then Some!

- Our new, exclusive Acronis Snap Restore feature provides lightning-speed restores

Feature	Benefit
<b>New!</b> Backup and restore specific files folders and your entire PC	<p>More flexibility with two in one!</p> <ul style="list-style-type: none"> <li>You can backup specific, critical files/folders and restore them using a wizard</li> <li><b>And</b> you have the option to create a copy of your entire PC and restore it from an image in minutes</li> <li>By restoring from an image, you can avoid the time-consuming task of locating all your application CDs and registration codes, and then reinstalling and reconfiguring all your programs</li> </ul>
<b>New! Exclusive!</b> Acronis Snap Restore	<p>And then some!</p> <ul style="list-style-type: none"> <li>Lightening-speed restore of your PC from an image. You can start working in seconds while your system is still being restored</li> </ul>
<b>New!</b> Exclude files	<ul style="list-style-type: none"> <li>Save space when creating backups by only backing up the types of files you want to keep</li> </ul>
<b>New!</b> Differential backup	<ul style="list-style-type: none"> <li>Decrease the number of backups you manage. Differential backups capture the changes made since your last full backup</li> </ul>
<b>Live backups</b>	<ul style="list-style-type: none"> <li>Run backups while you are using your computer</li> </ul>
<b>Backup scheduler</b>	<ul style="list-style-type: none"> <li>No need to remember to run backups on a regular basis; you can have the software do it automatically</li> </ul>
<b>Exclusive</b> Acronis Secure Zone	<ul style="list-style-type: none"> <li>No need to purchase an extra hard drive, CDs, or DVDs to protect data because you can save data to a special hidden partition on your hard drive</li> </ul>
<b>Exclusive</b> Acronis Recovery Manager	<ul style="list-style-type: none"> <li>Boot your computer to start the recovery process without boot media by selecting the F11 key, even if your operating system has failed</li> </ul>
