Main Features of hTc Z Handset

- Windows Mobile® 5.0 Japanese edition synchronizes with Windows Server® and Microsoft Exchange Server 2003 SP2, enabling push-based wireless access to e-mails, schedules, etc. Data stored in the handset can be deleted via a remote server for added security.
- Standard QWERTY¹ keyboard enables easy typing of e-mails, etc.
- Supports POP3 and IMAP4 mail. Multiple e-mail accounts are available. Enables editing of Microsoft Word® and Excel® attachments and viewing of PowerPoint® and PDF files.
- Dual-mode W-CDMA and GSM/GPRS capability enables voice and data communications overseas².
- Bluetooth® compatible for hands-free calls with wireless headsets, as well as wireless connection to PCs through a dial-up.
- ActiveSync® wirelessly synchronizes personal information management (PIM) data between the handset and PC.
- Secure access to the intranet via the 3G FOMA™ network³.
- Compatible with wireless LAN (IEEE802.11b/g).
- Add-in applications easily created with the Microsoft's Software Development Kit.
