[Home Discount Hikari Set]*1 Data Flat-rate Pack - Small (2GB) cannot be subscribed with Unlimited Voice Call Light Plan.*2 3G/4G feature phones are not applicable. Discount for the flat fee of the 4G LTE flat-rate program or 4G smartphone start campaign will not be applied. For certain campaigns, the discount amount may change while the campaign is valid.*3 When Home Discount Hikari Set - More Campaign (White Plan) is applied.*4 When Home Discount Hikari Set - More Campaign (SoftBank Hikari Family Light) is applied.*5 A subscription to Hikari BB Unit, Wi-Fi Multi Pack or White Hikari Phone / Hikari Phone (N) + BB Phone / BB Phone is required.*6 For customers with the Forever Discount, the discount period is 2 years.*7 A subscription for White Call 24 is required for both the mobile phone line and fixed-line Internet service. <Offer Conditions> During the campaign period, the customer uses the corresponding service charge for his/her smartphone, feature phone or tablet together with a fixed-line Internet service (the fixed-line Internet service can be under a single family name). • When applying, you must specify your payment method for the fixed-line Internet service. If payment for the service cannot be confirmed, the discounts/benefits may be canceled. • If discounts for the Data Share Plus Plan (secondary line) or Data Sharing Option for Family are being applied, the discount from the Home Discount Hikari Set will not be applied. If the Smartphone Flat-rate Family Discount is being applied at the same time, the bigger discount will be applied. • Certain services/campaigns cannot be used with this offer. • If SoftBank cannot confirm the fixed-line Internet service contract after 180 days after applying for the fixed-line Internet service (including cancellations by customers before the 180th day. Not applicable for fixed-line service cancellations resulting from the decision of a provider), or in the case that the fixed-line service is a cable line, Hikari de Talk S (Cable line) or NURO Hikari Phone (Cable line) and SoftBank cannot confirm the White Call 24 contract after 180 days have passed since applying for the White Call 24, discounts will end at the end of the previous billing month in which the contract status of the fixed-line service was confirmed and discounts applied up to that point will be added up and charged to your smartphone/tablet line. • Before the opening of a fixed-line Internet service is confirmed, if cancellation conditions for the Home Discount Hikari Set are met, discounts will end at the end of the previous or current billing month and discounts applied up to that point will be added up and charged to your smartphone/tablet line. • While Smartphone BB Set Discount or Home Discount Hikari Set is applied, if it has been applied in the past, the discount period will be carried over. If the discount starting from the 3rd year is being applied and this offer was subscribed with a fixed-line service that does include a Forever Discount, the discount will not be applied. • If Home Discount Hikari Set is applied with a fixed-line service other than SoftBank Hikari Family Light, the discount amount of Home Discount Hikari Set may decrease according to the change to SoftBank Hikari Family Light. • If you upgrade/change to a model that is not applicable for this offer and the corresponding price service is canceled, the discounts will stop at the end of the current billing month. If you cancel or transfer the rights of the mobile phone line, the discounts will stop at the end of the previous billing month. • If the fixed line Internet service or required optional services are canceled, all discounts associated to all mobile phone lines and tablets related to this service will stop at the end of the previous billing month. • Disney Mobile on SoftBank phones are not applicable for this offer. • dynapocket X02T, X01SC, HTC Desire X06HT, TOUCH DIAMOND X04HT, TOUCH PRO X05HT, X01T, X03HT, X02K, X02HT are not applicable for this offer. • If SoftBank determines that the conditions are not met, the discounts/benefits can be canceled even if the offer has already been applied. • Up to 10 lines can be applied for a single fixed-line Internet service line (Smartphones, feature phones, tablets, mobile Wi-Fi routers; combined for Smartphone BB Set Discount and Home Discount Hikari Set). [Home Discount Hikari Set - More Campaign (SoftBank Hikari Family Light)] • If Smartphone BB Set Discount or Home Discount Hikari Set has been applied in the past, the discount period will be carried over. • If used with the Home Discount Hikari Set - More Campaign, the bigger discount will be applied. • If the fixed-lined Internet service is changed from SoftBank Hikari Family Light to another service, it will be canceled. [Home Discount Hikari Set - More Campaign (White Plan)] • If the plan is changed, the discounts will end. • If Smartphone BB Set Discount has been subscribed before, the discount may not increase because the discount period will be carried over. • If Home Discount Hikari Set has been applied in the past, the discount will not increase. [Home Discount Hikari Set - More Campaign -common-] • For SoftBank Hikari Family Light, the discount will not increase from the 3rd year. • For other offer conditions (campaigns that cannot be used together, refunds, etc.) not listed, they are the same as the Home Discount Hikari Set. [Discount for mobile Wi-Fi router.] <Off Conditions> • New subscription to a price plan for a mobile Wi-Fi router. • Customer with a contract for a smartphone/feature phone/tablet and subscription to Home Discount Hikari Set. • If you cancel or transfer the rights of the mobile Wi-Fi router line, the discounts will stop at the end of the previous billing month. • If the discount is stopped, the offer is not available again. *8 For SoftBank Hikari Giga Speed and Super High-speed. For SoftBank Hikari High-speed (IPv6 IPoE-IPv4), the maximum download speed is 1Gbps. 1Gbps is the maximum theoretically possible download speed according to technical specifications. Download speeds may vary depending on your system environment and network status. *9 Installation/Wiring fees may be required. *10 In order to receive points, you must send an entry at the special page after applying for the "Premium" plan. There is a limit to how many points can be granted. For details, see the related website (<http://bb-service.yahoo.co.jp/shopping/>). ©Discounts and benefits may change without notice. ©Each discount amount is based on the amount subtracted from the total amount with tax.

Conditions

- The required price services must be subscribed.
- The primary and secondary line must be subscribed under the same family discount.

• Price is applicable when subscribing to a 2 year contract. The 2 year contract is a **2 year subscription (automatically renews)**. Canceling outside the contract renewal period (first two billing months after the contract expires) incurs a cancellation fee of ¥9,500. The first month of the contract period is calculated from the day in which the service starts to the end of the next billing month.

• One secondary line is applicable for a single primary line. • Certain services/campaigns cannot be used with this offer. • If monthly data transfer usage exceeds the data cap of the primary line, transfer speeds (both upstream and downstream) for the primary line and secondary lines will be limited to 128Kbps for the rest of the billing month. • Flat-rate data service and Data Share Plus monthly usage fees are not pro-rated. • If you cancel during the renewal month, discounts will only be applicable to the previous months of usage and will not be applied for the current (renewal) month. <Applicable price plans> ○Primary line: Unlimited Voice Call Plan / Unlimited Voice Call Plan (feature phone) / Unlimited Voice Call Light Plan / White Plan / Standard Plan (S! Basic Pack, Data Flat-rate Pack - Small (1GB) (2GB) / Regular (5GB) (8GB) / Large (10GB) (15GB) (20GB) (30GB) / Flat-rate Data Plan for 4G LTE / Flat-rate Data Plan for 4G (For Unlimited Voice Call Plan Light, Data Flat-rate Pack - Small (2GB) cannot be subscribed. Unlimited Voice Call Light / White Plan / Standard Plan, Flat-rate Data Plan for 4G LTE / Flat-rate Data Plan for 4G can only be subscribed with iPhone (iPhone 5 or later) or a 4G smartphone.) ○Secondary line: Basic Plan for Tablet / Basic Plan for Router / Basic Plan for Router (High-speed), Basic Internet Service Fee • For the secondary line, the monthly fee for Data Share Plus (¥500/month) is automatically applied. • The primary and secondary line both require a subscription to a flat-rate data service. For the period before this service is applied and until the service ends, the subscribed flat-rate data service will be applied (during the period, the flat rate for data flat-rate service will not be charged).

Data Sharing Option for Family If you subscribe to multiple lines as a family, you can share the Data Flat-rate Pack of the primary line as a secondary line. [Monthly cost for data sharing: ¥500/month for each secondary line]

[Applicable Data Flat-rate Packs applicable for the primary line] Data Flat-rate Pack - Large (10GB) (15GB) (20GB) (30GB) [Services that cannot be used with this plan] If 10GB Pack Discount, Data Share Plus, Home Discount Hikari Set or Unlimited Voice Call Light Plan is used, you cannot subscribe with Data Flat-rate Pack - Large (10GB) as the primary line. • If you subscribe to Data Flat-rate Pack - Large (10GB) (15GB) (20GB), then you can subscribe to the Unlimited Voice Call Light Plan as your secondary line. • If monthly data transfer usage exceeds the data cap of the primary line, transfer speeds (both upstream and downstream) for all applicable devices sharing the data plan will be limited to 128Kbps for the rest of the billing month. • Certain services/campaigns cannot be used with this offer.

• The voice call and data usage rates listed in E-4 differ when international services are used. See E-12 and E-13 for more information. Traffic information is gathered, analyzed, and accumulated for each data transfer in order to improve network quality. In addition, data transfer may be restricted according to SoftBank's communication restrictions. See E-15 for more information.

The deadline for accepting the following service subscriptions for new iPhones and 4G smartphones will be notified on the SoftBank website. Customers who have already subscribed can continue with the service even after registration ends.

• For customers who switch to a 4G LTE/4G contract, the ¥3,000 administrative processing fee is waived!
[Condition: Users who subscribed to the White Plan on or after November 1, 2012 and switched to 4G LTE/4G contract from a 3G feature phone (At least 7 months need to have passed since subscribing to White Plan)]
* Feature phones include Access Internet and Access Internet Plus. 4G smartphones include Access Internet. • The contract is for two-years and renews automatically. Canceling outside the contract renewal period (2 months after the contract expires) incurs a cancellation fee of ¥9,500. • The first month of the contract period is calculated from the day of the start of the contract period to the end of the next billing month. • For voice calls that are made before 9PM or 1AM but end when the hour passes, the fee for the 30 seconds that pass will not be charged. • White Plan may not be used to provide telecommunication service to others (Intention to provide telecommunication service). If a subscriber is determined to be using White Plan as a vehicle to provide service to others, the price plan will be changed to one determined by SoftBank, and changing to another price plan will be restricted for a certain period of time.
• For voice call fees when calling a SoftBank handset from a general fixed-line telephone and public telephone, see the SoftBank website. (Japanese only)
• When calling an Y! mobile user who is on roaming from a SoftBank network, a SoftBank ring tone can be heard. In such cases, the voice call will be considered a call to a non-SoftBank carrier.

You can also choose Standard Plan (basic fee ¥1,867; no two-year contract; same fees for voice calls and communication as White Plan).
• For new customers of SoftBank who do not purchase a mobile phone, a special price plan (prepared separately) will only be applied (not applicable for campaigns).

Preventing unlawful contracts

Solution 1 Working with law enforcement agencies and improvement of personal identification.

① Examinations using multiple original copies of identification documents ... Note that contracts may require some time to be completed.

② Information reports to police authorities, etc. When the information shown on a driver's license, etc. is provided at the time of contract application in order to confirm identification, that information may need to be provided to police authorities, etc. Please be aware that we may provide that information as required depending on the circumstances.

• A customer making forged or modified identification documents and using such documents or another person's name when applying for a contract falls under document forgery crime (section 155 of the criminal code) or fraud crime (section 246 of the criminal code). • Using falsified personal information (name/address/date of birth) at the time of application for a mobile phone, transfer of one's own mobile phone without prior consent, and transfer/receipt of another person's mobile phone violates the Act for the Prevention of Illegal Mobile Phone Use.

SoftBank Corp./ National Police Agency/ Prefectural police agencies

Solution 2 Handsets/3G communication service for communication handsets/4G LTE/ 4G communication service may be restricted for some handsets.

In order to prevent the usage of handsets/data communication handsets obtained with unlawful contracts that use counterfeit documentation, etc. in crimes such as bank transfer fraud, the 3G communication service/4G LTE/4G communication service for handsets that meet one or more of the following criteria may be restricted.

1. If obtained using unlawful means through crimes such as theft, fraud, or other means that violate laws (Act for the Prevention of Illegal Mobile Phone Use, document forgery, etc.).
2. If personal details (name, address, birth date) on the application form have been falsified.
3. If postal matter from SoftBank such as bills, etc. cannot be delivered to the contact information shown on the contract application form.
4. If payment debt (including installment payment debt through a third party) is not being fulfilled or there is high probability thereof.

Handsets that are applicable to network usage restriction can be confirmed on our website (Japanese only) [Confirmation of Network Usage Restriction compatible handsets]

Notes on usage

Efficient use and mobile phone etiquette
 Voicemail service and other functions are useful for when your mobile phone is off

• Please do not use your mobile phone while driving a vehicle as it can cause an accident. • Since it may cause interference with the operation of medical equipment and other machines, mobile phone usage is prohibited in hospitals, laboratories, and other research facilities. • Please make a habit of turning off your mobile phone in crowded areas. • Be careful to not use your mobile phone on a train, as it may become a nuisance to others. When riding on a Shinkansen (bullet train), please move to an area where you will not cause a nuisance to others before using your mobile phone. • When inside restaurants and other quiet locations, be careful of the volume of your voice.

Customers with a pacemaker
 If you or someone near you has an implanted cardiac pacemaker or implantable cardioverter-defibrillator, use and/or carry the mobile phone at least 22 cm away from such devices. Also, be careful using automatic power on/off.

Concerning the exchange of customer information between carriers that provide mobile phone and PHS services
 Information regarding 1) customers whose bills are left unpaid after canceling their subscriptions, 2) customers who have had their contracts terminated for sending unsolicited bulk mails and 3) customers who have been subject to usage termination after a request for personal identification for a subscriber line by law enforcement agencies that could not be verified, is shared among mobile phone, PHS. This information is used at the time of application and applications may be refused on the basis of this information.

Regulations for the usage of personal information
 Regulations for the usage of personal information SoftBank Corp. (hereafter, "SoftBank") determines and discloses our policy (hereafter, "privacy policy") relating to our use and collection of all personal information based on and in compliance with the Personal Information Protection Act (law 57 of 2003). In observing this privacy policy, SoftBank pledges to safely and efficiently handle all personal information including customer information. Details can be viewed using SoftBank handsets (Japanese only) or the SoftBank website (www.softbank.jp/en/corp/group/sbm/privacy/) (English).

CAUTION: Please read your mobile phone's operating manual carefully before use.

Notes on usage • Do not use or place the phone near wet, sweaty, humid, steamy, dusty, or sooty areas. It may cause a malfunction, fire or electric shock. Please note that water damage may occur in the following situations: - Becoming wet from sweat after being placed in a pocket. - When used with wet hands. - When used in the rain. - When placed in a bag with wet things. - When placed on a wet table. - When used in places likely to be wet (leisure activities, baths). - When dropped in a toilet. - When dropped in a pool of water or river. - When placed in a washing machine. - When dropped in a bathtub. • SoftBank mobile phones use electromagnetic signals for communications and thus cannot be used to make or receive calls or send and receive email messages when in an area with no reception (such as in a tunnel, underground, in the mountains, etc.) even if the user is in a regular service area. They also may not work to make or receive calls or send and receive email messages when in an area with poor reception such as within a building, behind a building, in a basin or other low-lying area, or inside a bag. Please be aware that calls may be dropped if the phone is moved to such an area while in the middle of a call. • SoftBank mobile phones work to continue maintaining high call quality to the extent possible in areas with weaker signals using the characteristics of its digital communications method. Should the limit be exceeded during a call, the call may be dropped or cut off if the signal becomes too weak. Please be aware of this. • SoftBank mobile phones are highly secure devices but are still potentially open to eavesdropping and wiretapping as they are used over electromagnetic signals. Please take the necessary precautions to protect yourself against such issues to the extent possible. • There may be some noise introduced if you use a SoftBank mobile phone with a hearing aid. • Try not to use your SoftBank mobile phone near a TV or radio that is turned on, a landline telephone, or a car audio system as doing so may adversely affect the signal (generate noise). • Refunds will not be given for administrative processing fees, the cost of the standard phone set, and other expenses should a user cancel their contract for personal reasons. • SoftBank Corp. shall accept no responsibility financially or otherwise for damages resulting from missed calls and other opportunities due to product failure, malfunction, power outage, and other problems caused by outside sources. • It is recommended that you keep a separate record of the information registered to your SoftBank mobile phone and USIM card in case of problems. SoftBank Corp. shall accept no responsibility for the loss of registered information. <Precautions for handling your mobile phone> • It can be extremely dangerous to place metal objects such as keys, lighters, and necklaces in with your mobile phone or battery pack when carrying them in a bag, etc., as such an object could make contact with and short out the battery terminals, causing the battery to become damaged or the metal object to become too hot. It is recommended that you place your phone in a special case when carrying it with you or at least keep it away from metal objects when carrying it. • Do not attempt to disassemble or modify the device. Attempting to disassemble or modify the device could lead to overheating, fire, and/or device failure. • Use only dedicated SoftBank accessories for the battery pack, battery charger, and other related items. The use of non-specified accessories could cause overheating, fire, and/or device failure. • Stop use immediately and submit for repairs as soon as possible should the device malfunction. • Stop use immediately should the device emit smoke or an abnormal odor during use of the mobile phone features or while it is charging and then contact the SoftBank Loss/Damage Customer Support Center for assistance.

Contract Renewal Fees and Mobile Phone Upgrade Fees
 The below fees will apply to subscribers renewing their contracts (including changing from 3G to 4G LTE/4G) or upgrading their mobile phones (within a single household). (These fees will be added to the regular bill.)
 ■ Contract renewal fee: ¥3,000 / Mobile phone upgrade fee: ¥3,000

Universal Service Charge
 With the start of Universal Service System, we ask SoftBank users to pay a "Universal Service Charge".

- The Universal Service System is a system that makes all telephone companies take appropriate responsibility by managing the expenses for maintaining an environment that allows any household in Japan to have equal and stable usage of the universal services (fixed-line telephones, public telephones, emergency calls and other telephone services essential to society) provided by NTT East/NTT West. • Because the obligatory fees per line covered by telephone companies are to be reviewed by the Telecommunications Carriers Association semiannually, the amount each customer pays may change accordingly. For details on Universal Service System, please access the Telecommunications Carriers Association's website (www.tca.or.jp) or recorded guidance message/fax service (03-3539-4830/24 hrs. a day/Be sure to enter the telephone number correctly.) (Japanese only)
- * For details of the universal service charge, please see the SoftBank home page. (Japanese only)

Now accepting applications for Number Portability (MNP)! Switch to SoftBank and keep the same phone number that you are using right now.

STEP 1 Apply for Number Portability (MNP) with your current mobile phone carrier.
 Please check with the Number Portability (MNP) reservation desk of your current mobile phone carrier and receive an MNP reservation number.

STEP 2 Take your MNP reservation number to apply for a new contract at a SoftBank shop, SoftBank retailer, or the SoftBank Online Shop.
 See the "Make sure you have the following items/information" section on E-16 for information on required documents.

For a 3G Mobile Handset with data sharing between the main and secondary line, the conditions apply when the monthly data usage from 2 months ago is 366MB or more. [Excluding Business Data Plan Flat (4G), Business Data Plan Flat (4G/LTE), Business Data Plan and other mobile data plans for sub-areas] Data usage can be tracked by checking your bill statement (online or paper). The total number of packets indicated under "Communication Fee/Packets" in a monthly bill may indicate the number of packets in excess of the limit for each of the flat-rate data services (does not apply to Keitai Wi-Fi packet counts). [Business Data Plan Flat (4G), Business Data Plan Flat (4G/LTE), Business Data Plan and other mobile data plans for sub-areas] The following is a rough guideline for data usage. Viewing a video (1,024Kbps, 5minutes): 300,000packets (38MB), Downloading music data (128Kbps, 4minutes): 30,000packets (Approx. 3.8MB) [Flat-rate Data for Simple Style (Prepaid)] • Use of 3G data service is assumed. • A "month" is specified as the period from the 1st day to the last day of a calendar month regardless of the application date for a flat-rate data service plan. • Monthly data usage indicates the total packets transferred during a month regardless of the data plan. • A notification SMS will be sent during the beginning of every month for customers applicable with data restrictions.

2. Traffic information is gathered, analyzed, and accumulated for each data transfer in order to improve network quality. In addition, data transfers may be regulated according for the following data transfers.

Content/Service that may be restricted

Content	Explanation
Data that uses VoIP (Voice over Internet Protocol)	Services that convert voice calls and video calls to data packets
Certain videos/images	MPEG, AVI, MOV and other video files, BMP, JPEG, GIF and other image files
Data transfers with large volume or that connects for a long time	Sites and apps that use video, high quality image browsing and connect for a long time

• When using the contents/services listed above, data speed restrictions and file optimizations may need to be performed. Optimized data cannot be restored on occasion. Data transfers may be regulated but they will not be disconnected. For other data transfers, optimized files can be restored on the handset. Files may be optimized when it can be determined that there will be no effect on data transfers performed by the user. • For data that does not display in contents during data transfers, certain parts may not be downloaded as long the data can be viewed/browsed. The truncated data cannot be restored. • Other data transfers for example, SoftBank voice calls, video call, and Wi-Fi connections will not be restricted.

⚠ If you are using a flat-rate service, please note that certain data usages are not covered by the flat fee.

[Data usages not covered by the flat fee] • Features on certain models (for example, 705NK) • When connecting your phone to a computer using a USB cable • Packet communications with Access Internet • Mobile Data used with a SoftBank Connect Card • Overseas usage (Excluding America Flat-rate Option usage) • International SMS • International S! Mail (MMS) • SMS • Voice calls • Video calls
• When high monthly data usage fees may incur, a notification mail (SMS) will be sent out to notify customers.

If high data charges are incurred within a certain period of time, SoftBank may restrict the use of 3G, 4G LTE/4G data service or block new contents from being purchased. (Policy in effect since December 1, 2010)

To customers who applied for an installment payment contract or indirect installment sales contract (third-party credit contract for each commodity)

SoftBank will register the payment status of users who sign up to pay for handsets in installments with the designated personal credit information bureau (including delinquent payment information). More information is available on the SoftBank website (www.softbank.jp). (Japanese only)

• Other credit card contracts may not be available if there is any delinquent payment information or other such information found to be registered with a designated personal credit information bureau or similar organization. Delinquent payment information remains on a person's record at a designated personal credit information bureau for five years following full payment, which can be used in credit checks completed by other credit organizations. [Precautions to consider with regard to cases in which the paying party (payer) and the contracting party (contract subscriber) differ • Check both the payer and the contract subscriber] • Note that the information registered with and displayed by the designated personal credit information bureau is not that of the payer, but that of the contract subscriber. Even if the contract subscriber is a minor, should the legal guardian of the minor contracting party and payer be delinquent in payment, the contract of the minor contracting party shall be registered as being delinquent. • Even after contract cancellation, installment payments separate from calling fees will continue based on installment payment contracts or indirect installment sales contracts (third-party credit contracts for each commodity).

• Photocopied documents will only be used for the purpose of confirming the identity of the subscriber (For corporate customers, please see the above chart). • The applicant may be required to provide a deposit [up to ¥100,000 (no tax) per subscription, no interest]. When returning deposits if service agreements are terminated, SoftBank will deduct any unpaid fees from the amount returned. • Note that depending on the application content, documentation not listed or multiple forms of the listed documentation may be required. Please be aware of this. • Further confirmation may be sought regarding details from the issuer of the documents provided at the time of application. • SoftBank may discontinue user service or terminate the service agreement when information (such as name, address, or contact information) in a SoftBank service agreement application is discovered to be falsified, or when bills or other paperwork posted by SoftBank cannot be delivered due to errors in service agreement application information. • For confirmation, we may contact you at the address and/or telephone number you supplied on your application. • The direct debit procedure will take 1-2 months from the date of application to complete. Until then, please use the invoice attached to your bill to pay the due amount at a bank, convenience store, or post office. • SoftBank may restrict use of 3G communication service, 4G LTE, or 4G communication service of handsets acquired through improper means such as theft, fraud, or means that violate laws (Act for the Prevention of Illegal Mobile Phone Use, document forgery, etc.) and handsets with unfulfilled payment debt (including debt for installment payments to third parties) or handsets thought to be at such risk. • 3G communication service, 4G LTE, 4G communication service contract, satellite phone and payment contracts, or indirect installment sales contracts may be declined due to credit check results. • Installment payment contracts or indirect installment sales contracts are limited to three per 3G communication service, 4G LTE, or 4G communication service agreement or satellite phone. Even if you have less than three installment payment contracts or indirect installment sales contracts, depending on the results of the investigation you may not be able to apply for a new installment payment contract or indirect installment sales contract. • In order to confirm user information, we ask that you voluntarily provide your user information (name, gender, birth date). • The information provided here is valid as of May 30, 2016. It is subject to change.
