

SoftBank X02HT Services

● Global Roaming Service (p.2-13)

- Global Roaming Service requires a separate application.
 - If USIM Card or X02HT with USIM Card installed is lost or stolen, call SoftBank Global Call Center immediately to stop service. From abroad dial +81-3-5351-3491 (international charges apply). USIM Card holds important user information including your phone number, and may be used in other handsets. Charges apply to all calls made from the USIM Card phone number.
 - Use PIN to help prevent unauthorized use (p.1-8, 6-5).
 - Domestic and roaming charges differ. Overseas, charges apply to received calls.
 - Change Network Type and Band Select settings for local networks abroad (GSM900/1800/1900, W-CDMA) (p.2-13).
 - Service area, available services and transmission fees vary by local carrier. Select carrier manually as required (p.2-14).
- * For local network, service area, service or transmission fee information, or to submit an application, see <http://mb.softbank.jp/mb/en/>

● Web Use Restrictions

· Block access to harmful sites such as adult sites. Settings do not apply in cases below. If Web Use Restrictions are set, do not use these connection methods:

- 1) Using browser other than pre-installed Internet Explorer Mobile
- 2) Connection via WLAN
- 3) WLAN is On in Comm Manager; packet communication connection
- 4) Connection via Access Internet

● Security Software

· X02HT may be exposed to viruses via Internet connections or mail attachments. Install security software to reduce risk.

● PC Mail or Public WLAN Usage

· PC Mail or public WLAN use requires separate contract with a service provider. Configure ID/Password settings beforehand.

· Microsoft, Windows Mobile and Internet Explorer are trademarks or registered trademarks of Microsoft Corporation in the United States and other countries.
